

Stellantis Independent Operator Portal User Guide

Existing Tech Authority User:

- The email used for registration should be the same as your previous TechAuthority.com account to migrate the subscription successfully.

New Tech Authority User:

- Register with the email address of your choosing.

Note:

- If you use both wiTECH and Tech Authority, registered email addresses in wiTECH 2.0 and Stellantis IOP are required to be the same to receive full functionality of wiTECH.

A user registration form overlaid on a background image of a mountain road. The form fields are: First Name *, Last Name *, Email *, Phone, Country * (dropdown), Language * (dropdown), Password *, and Confirm Password *. Each text input field is represented by a dark grey rectangular box.

Diagnostic Tools
wiTech 2.0

wiTECH 2.0 diagnostic application is essential to perform critical diagnosis and updates to electronic components of Stellantis vehicles. Benefits of wiTECH 2.0 include ability to use tablets and smart phones along with PCs, increased speed and robustness through cloud-based server model, rapid vehicle identification (device discovery) and enhanced wireless connectivity and mobility. In addition, no more PC installations and updates to burden technicians, but an overall greater productivity through improved diagnostic system efficiency.
